Subject: RE: webinar

Thank you. We should meet to discuss how the concept might fit in on some of our upcoming Planning efforts (mercury TMDLs, pesticides control program). I'd really like to come down and meet with the EPA team again; and try and re-initiate discussions on overarching Central Valley projects.

Thanks Adam. I'm trying to find out exact time/agenda for the webinar- will let you know. Would be happy to discuss trading and other market-based implementation opportunities you are seeing in the CV at any time. The memo looks promising but is raising lots of Qs

Best
Dave
